Inspira Technologies OXY B.H.N. Ltd.

Inspira Technologies is an innovative medical technology company in the respiratory treatment arena. The Company has developed a breakthrough Augmented Respiration Technology, which it believes will elevate and stabilize patient oxygen saturation levels. The Company's ART technology potentially allows patients to remain awake during treatment while minimizing the use of the highly invasive, risky and costly mechanical ventilation systems that require medically induced coma. The Company's product has not yet been tested or used in humans and has not been approved by the U.S. Food and Drug Administration (FDA).
